## How to Transact Business with the Company

OUR aim is to render a service that will be satisfactory to our customers. We realize that difficulties will sometimes occur notwithstanding all our efforts to avoid them. On the outside front cover of this directory are shown the telephone numbers which should be called to report service difficulties.

If at any time difficulties are not promptly corrected or unsatisfactory conditions persist, we shall appreciate your communicating the facts direct to the Manager.

The office at which business may be transacted is located at 209 Pearl, Ypsilanti. The Manager in charge is A. T. Baker, telephone number 9913. Office hours are 8:00 A.M., to 5:00 P.M. The office is closed on Sundays, and on generally observed legal holidays.

### ORDERS FOR NEW SERVICE, CHANGING OF LOCATION AND DISCONTINUANCE

Applications for new service, rates, changes in, or additions to existing service or equipment and other information may be made by telephone, or by mail, or in person to the Company's business office.

### BILLS AND PAYMENTS

Bills are rendered monthly and are payable when rendered. They cover local service charges in advance for a one month period from the date of the bill, and long distance service charges for a one month period ending at the date of the bill. If the bill is not paid within fifteen days from its date, service may be refused without further notice. When service is denied because of nonpayment, a charge of $1.50 is applicable for the restoration of service. Each customer is held responsible for all long distance messages originating at his telephone.

## How to Use the Telephone

ALWAYS secure the correct telephone number from your "Ready Reference Register" list of numbers or from the current issue of the telephone directory before you make a call. If the desired listing is not found, call "Information."

When making a call, give the operator the desired number slowly and distinctly in a moderate tone of voice, speaking directly into the mouthpiece of the telephone.

If, for any reason, service difficulties are encountered such as a wrong number, a double connection, or cut-off, signal the operator and report the condition.

## Long Distance Calls

RATE INFORMATION to certain out-of-town points will be found on page 6. The rates to points not listed, and the Station-to-Station reduced rates may be obtained by calling Long Distance. Reduced Evening and Night rates apply on Station-to-Station calls only, and then only when the day rate is more than thirty-five cents. Evening rates apply from 7:00 P.M. to 8:30 P.M. and are less than the day rates. Night rates apply from 8:30 P.M. to 4:30 A.M. and represent a further reduction over the Evening rates.

Before placing a call, first determine whether the lower priced station-to-station service can be used or whether the person-to-person service is more suitable.

When placing out-of-town calls, give the Operator the telephone number at the called point, if known, or if listed on your "Ready Reference Register" as it will speed the completion of your call.

### YOUR OPERATOR, NOT LONG DISTANCE, WILL HANDLE "TWO NUMBER" TOLL CALLS

Calls by number to points in the following list should be made by giving the desired number to the Operator who first answers. When the Operator answers give her the name of the place and the telephone number desired. Then wait with the receiver to your ear for an answer

from the called telephone or a report from the Operator, as you would on a local call. Station-to-Station rates apply to Two Number service.

If the desired listing is not shown in the directory call "Information" and secure the number from her.

## TO PLACE A LONG DISTANCE CALL

Call LONG DISTANCE and give the Long Distance Operator:

1. The name of the place you wish to reach.
2. The number you wish at that place, or, if the number is not known, the name and address under which the number might be listed.
3. If a Person-to-Person call, the name of the person with whom you wish to talk, or the extension number of the Private Branch Exchange.

When requested by the Operator, give your telephone number. Hold the line until the called telephone answers or the Operator gives a report.

## STATION-TO-STATION SERVICE

A Station-to-Station Call is one on which you agree to talk to anyone who answers at the called telephone. The rates are less than Person-to-Person rates.

## PERSON-TO-PERSON SERVICE

A Person-to-Person Call is one on which you desire to talk to a certain person, or to be connected with a specified telephone reached through a Private Branch Exchange.

## COLLECT CALLS

A Collect Call is an out-of-town call on which arrangements are made to have the called telephone pay the charges. The collect basis is available at the same rate as non-collect calls for all Person-to-Person calls and for Station-to-Station calls if the initial period rate is 25c or more. On Station-to-Station calls, if the initial period rate is 20c, a reversed call is accepted at the 25c rate. When the initial rate is less than 20c, reversal of charges is made only under the corresponding Person-to-Person rate. If the request for reversal of charges is not accepted without delay, or the call is cancelled, then the regular Report Charge applies.

## REPORT CHARGES

A Report Charge is made on Person-to-Person calls when the called party is not available at the called telephone or if the calling party is not available when the called station or party is reached. On collect calls this charge applies if the called party does not accept the charges.

## MESSENGER CALLS

A Messenger Call is an out-of-town call on which the Telephone Company sends a messenger to notify the called party to come to a telephone to talk. The messenger fee is added to the charge of the call.

### INTERNATIONAL TELEPHONE SERVICE

Long Distance telephone service is available to practically all points in foreign countries. Ship-to-Shore service is furnished on certain steamships. Place your call in the usual way for this service. For rates, call Long Distance.

## Telegrams by Telephone

TO SEND telegrams, cablegrams or radiograms by telephone, call the desired Telegraph Company by name. Charges for telegraph messages filed by telephone will be placed on your telephone bill.

## General Information

### ANSWERING TELEPHONE CALLS

Answer calls promptly so as to prevent having the calling party waiting. When answering calls, announce your name and the name of your firm. When a called number answers, announce first the name of the person to whom you wish to talk and then your own name or the name of your firm.

### RURAL LINE SERVICE

To place a rural call from a city telephone, call the rural operator and give her the number you are calling.

All rural subscribers on a line have equal rights and should limit their conversation to five minutes duration.

They should answer their own ring signals. If there is any confusion about the ring signals, the fact should be reported promptly to the Chief Operator.

Before making a call, remove the receiver and listen a moment to make certain no one is talking on the line.

Disconnect by ringing off when conversation is finished.

### ADVERTISING

Advertising rates and other information regarding directory advertising will be furnished by the Business Office upon request.

### BUYERS' SERVICE

If you cannot buy locally what you need—whether it is a commodity or service—write the Telephone Directory Advertising Company, 321 W. Lafayette, Detroit, Michigan. You will be furnished with the names of firms that can supply your needs. There is no charge for this service.

### ERRORS IN THIS DIRECTORY

The Company cannot and does not assume any liability because of errors and omissions in compiling this book. Sometimes notwithstanding care and attention given it, errors will creep in. Please check your listing in the directory. If it is incorrect in any way, please call the Business Office so that it may be corrected in the next issue.

### ATTACHMENTS TO TELEPHONES

This Company is responsible for giving efficient telephone service. The equipment and apparatus furnished you have been designed to produce the best telephone results, therefore we cannot permit the attachment of devices and so-called improvements which may prove detrimental to the service, and to protect the service the Company will remove any such device. We are prepared to furnish apparatus to meet any special conditions.

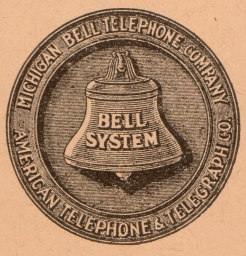
# When You Wish to Telephone Out-of-Town Friends or Relatives---

## Use the kind of call best suited to your need

A *Person-to-Person* call should be used when you wish to talk with someone in particular and no one else will do. Rates for Person-to-Person calls are the same at all hours.

A *Station-to-Station* call should be used when you can talk with anyone who answers at the distant telephone. Day Station-to-Station rates are lower than Person-to-Person rates. Evening and Night Station-to-Station rates are still lower.

If you give the Long Distance operator the number of the telephone you are calling, usually the call is completed while you "hold the line."



# LONG DISTANCE RATES

The rates quoted below show the application of two classes of telephone service most frequently used to a few Long Distance points. Rates to over 88,000 other points may be obtained by calling "Long Distance." Rates are subject to change without notice.

On each telephone conversation on which the charge is $.50 or more the Federal tax will be added; where the charge is from $.50 to $.99, the tax is $.10; from $1.00 to $1.99, the tax is $.15; for $2.00 or more, the tax is $.20.

## Long Distance Telephone Service Is Faster If You Give the Number of the Telephone You Are Calling

If you do not know the number, give the name of the person under which it probably is listed. ¶Usually, if you give the number, your call will be completed while you "hold the line."

## FOR FASTEST LONG DISTANCE TELEPHONE SERVICE

When you telephone out of town, many of your calls can be completed while you "hold the line," if you give the operator the number of the telephone you are calling.

If you don't know the number, give the name of the person under which it probably is listed.

LONG DISTANCE

TELEPHONE SERVICE IS **FASTER** if you give the number of the telephone you are calling.

If you do not know the number, give the name of the person under which it probably is listed.

Usually, if you give the number, your call will be completed while you "hold the line."

## CALLS FROM THE YOUNG FOLKS . . . . .

Arrange a "Call Home" day once a week. The enjoyment and satisfaction that a telephone call brings will be equally great for both of you. And Long Distance Rates are surprisingly low!

## Air Mail Information

Eight cents for the first ounce or fraction thereof, and 13 cents for each additional ounce or fraction thereof. Air mail can be insured, registered, sent C. O. D. or special delivery when the additional fees are prepaid. It may be deposited in any mail box, but must be indorsed "VIA AIR MAIL" underneath the postage stamp immediately above the address.

## Aids to Proper Mailing

Write name and address plainly and completely.

Place name and address of sender on all matter.

Prepay postage fully on all letters and parcels.

Always address mail for city delivery to street and number and request correspondents to do likewise.

Use designation North or South, East or West when it is a proper part of the address and save delay in delivery.

Insure valuable parcels.

Wrap parcel post carefully in heavy paper and tie knots securely.

**You Will Often Gain a Day's Time in Delivery by Depositing Mail as Soon as It Is Ready.**

# Ready Reference Register

THIS page is provided for your convenience in recording telephone numbers you call most frequently. Your Long Distance calls can be handled faster if you give the number of the distant telephone when placing the call. Long Distance numbers may be obtained by calling "Information." If you wish to obtain a long list of Long Distance numbers, please call the Business Office, 9913.

*Please do not transcribe an old list of names and numbers without first verifying their accuracy. If the list is large the Business Office will gladly check it for you.*

# Developing Business by Telephoning Customers from Key Towns

The Key Town Sales Plan—*telephoning customers from key towns*—is so flexible that it will fit practically any sales program. Under that plan, salesmen go to key towns in their territories and telephone customers in the surrounding areas. The Key Town plan is very economical and enables a salesman to keep in frequent touch with *all* of his customers and to develop prospects.

We shall be glad to explain further the many economies and advantages of Long Distance telephone service and aid you in adapting the Key Town Sales Plan to *your* sales work.

We shall be glad to discuss the plan with you if you will call the Telephone Business Office.
